EDUCATION

Shobhit Institute of Engineering and Technology

Bachelor of Technology – Computer Science and Engineering — CGPA: 7.16

Meerut, Uttar Pradesh

August 2023 – May 2027

Holy Angels' Convent School

Senior Secondary (Class XII), CBSE — Percentage: 60%

Muzaffarnagar, Uttar Pradesh

April 2022 – February 2023

Holy Angels' Convent School

Secondary (Class X), CBSE — Percentage: 74%

Muzaffarnagar, Uttar Pradesh

April 2020 – February 2021

EXPERIENCE

Prodesk IT and Engineering Services

Front-End Development Intern

Remote

June 2025 – July 2025

- Developed and maintained reusable frontend components using HTML, CSS, and JavaScript, contributing to production-level codebase quality.
- Resolved bugs and improved code quality across multiple real-world development tasks, reducing UI inconsistencies.
- Collaborated with team members on project activities, strengthening problem-solving and web development skills in a professional environment.

CodSoft

Python Programming Intern

Remote

February 2025 – March 2025

- Built 5+ Python-based mini applications including a To-Do List, Calculator, Password Generator, and Contact Book, applying core programming concepts.
- Applied loops, functions, conditional statements, data structures, and error handling to deliver functional, tested Python programs.
- Enhanced programming proficiency through hands-on project development, demonstrating ability to deliver complete solutions independently.

PROJECTS

Disease Prediction System | Python, Streamlit, Scikit-Learn, Pandas, NumPy, ML

- Engineered a machine learning-based Disease Prediction System utilizing Decision Tree, Random Forest, Naive Bayes, KNN, and Ensemble Voting classifiers for multi-class disease classification.
- Implemented and evaluated 5 classification algorithms, comparing model performance metrics to identify the most accurate prediction approach.
- Deployed an interactive web interface using Streamlit, enabling real-time symptom input and instant disease prediction results.

BookVerse – An Online Book Store | HTML, CSS, JavaScript, Swiper.js, ScrollReveal.js

- Developed a fully responsive book discovery website featuring dark/light theme switching, smooth scroll animations, and mobile-first design for cross-device compatibility.
- Integrated Swiper.js for interactive carousels and ScrollReveal.js for animated content reveals, improving user engagement and visual experience.
- Implemented client-side form validation, ensuring data integrity and a seamless user experience across all screen sizes.

Responsive Registration Form | HTML, CSS, JavaScript, PHP, MySQL, Fetch API

- Built a full-stack responsive registration system integrating client-side JavaScript validation with server-side PHP processing and MySQL database storage.
- Implemented secure form submission using the Fetch API with asynchronous data handling, improving form responsiveness and user feedback.
- Designed a mobile-friendly UI with real-time validation feedback, reducing invalid form submissions.

TECHNICAL SKILLS

Programming Languages:	Python, C, C++, Java, HTML5, CSS3, JavaScript
Databases:	MySQL
Libraries / Frameworks:	Scikit-Learn, Pandas, NumPy, Streamlit, Swiper.js, ScrollReveal.js
Languages:	English (Proficient), Hindi (Native)

CERTIFICATIONS

Deloitte Australia – Technology Job Simulation — *Forage (Deloitte)* — *July 2025*

Claude Code 101 — *Anthropic Education* — *June 2026*

Google AI Essentials — *Google via Coursera* — *July 2024*

Google Cybersecurity Professional Certificate — *Google via Coursera* — *June 2024*

Python Fundamentals for Beginners — *Great Learning* — *May 2024*

KEY ACHIEVEMENTS

Black Belt 1st Dan – Karate (National-Level Representative): Represented district, state, and national-level karate championships, demonstrating discipline, perseverance, focus, and teamwork cultivated through years of competitive training.
